VK2/SP9FIH Lorh Howe Island -update August 27

'I planned to start working on the bands on August 27th, but surprises with my QTH meant I'll likely start the next day. The only place I could mount the antennas was near a large, old steel mast with steel guy wires and two large steel dishes, which caused my antennas to detune and degrade their SWR. Furthermore, there are a few trees nearby, which made things difficult. I spent all day adjusting the antennas to the surroundings.'

3G1P Ilotes Pajaros SA-100 -now QRT / update August 27 by Cezar VE3LYC

We filed a formal complaint yesterday with the Maritime Police in Iquique. It won't bring our stuff back, but we had to get it out, since the decisions of the rescue team have had such negative consequences. Based on further discussions, we concluded that it was unlikely that the sealions would have pushed our stuff into the sea. Human intervention also seems virtually impossible, in view of the very difficult sea conditions. Instead, the culprit appears to have been the sea. The conditions over the last few days were the worst here in 5 years. The high ocean swell of 2.8 to 3.0 m, under strong winds, could have created the necessary conditions for everything on the rock to be swept away. And the fact that the 2-el yagi was severely damaged appears to substantiate this point of view.

During the past 24 hours we received several encouraging messages from various chasers, as well as some donations specifically made to help us out with equipment losses. We want to express our gratitude to all those who helped and will continue to help. They are living proof that ham spirit is alive and well.

E51MWA North Cook Islands -update

The pallet of equipment for the E51MWA expedition has made it to its destination on Manihiki Atoll in the Northern Cook Islands. We plan to be QRV October 9-20, 2025. Current plans are for 160m-10m operations. Our band plan will be updated shortly. For those who plan to work us we offer an opportunity to make a \$10 or greater contribution towards our shipping costs home. Contributions received prior to September 25 will receive quick unlimited automatic LoTW uploads and a beautiful QSL card when we return. We expect to have internet connectivity via Starlink allowing us to Livestream on Club Log.

VP2VRX during the CQWW SSB contest. This operation features a team of operators (W3MLJ, KC1KUG, N4XTT, K4BEN and KC3VPB), all in their late teens and early twenties, who bring energy to DXpedition activities. The group has been planning this operation for many months, coordinating equipment, antennas, and logistics for a memorable and fun operation for both the team and the stations they work.

The timing works out well with the CQ Worldwide SSB Contest happening that weekend, which will bring lots of participation from stations worldwide. The plan is to start things off with a few days operating as NP2R from the US Virgin Islands (October 20-22); allowing the team to test equipment before moving over to the British Virgin Islands for the main VP2VRX operation during the contest (October 23-28). They'll be running multiple stations simultaneously during the contest. Outside the contest, the operators will each be active as VP2V/call on various modes/bands.

VP8, SOUTH GEORGIA ISLAND Amateur Radio DXpeditions (ARD) is proud to announce plans for a groundbreaking DXpedition to South Georgia Island, set to take place in March 2027. Operating under the allocated callsign VP0SG, this ambitious activation will target one of the rarest and most logistically challenging DXCC entities, well ranked on top of the Club Log's Most Wanted List, with particularly high demand in some areas of the world.

sponsors (donating \$1,000 or more in cash or equipment) will be recognized on our QSL cards and website. All Private Sponsors and Patrons will be listed on our website.' [Andaman - World DXpeditions](#)

YJ, VANUATU Stan, LZ1GC will be active as YJ0GC between November 23 and December 5. His station is a combination of verticals, GP antenna's and VDA's with an ACOM 1200S. QSL via LZ1GC, Club Log. (Stan's Lord Howe Dxpediton is cancelled.)

ZD9, TRISTAN DA CUNHA DX-World has learned that a Tristan da Cunha Dxpediton is in the pipeline for 2025. Whilst it is quite some time away, we have gleaned the following info. It will be a 3-4 month long DXpedition to ZD9 which could be extended by another 2-3 months bringing it to (potentially) 6+ months. The additional months could depend on PayPal donations / extra donors. Focus is going to be on CW & SSB. There will be VERY LIMITED usage of FT8. In fact, FT8 will ONLY be used on 80 & 160 meters. Bands of operation will be 10 meters to 160 meters. 1kW to monoband heavy duty vertical antennas due to Tristan da Cunha's very inhospitable weather.

ZL7, CHATHAM ISL Stan, LZ1GC will be operating as ZL7/call between November 3 and November 20. Operation from 160 to 10 meter with 2 stations using CW, SSB and FT4/8. Stan will use a combo of verticals, GP antennas and VDA's. QSL via home call, OQRS.

Special International Calls

CQ International Dog Day during August

When a group of radio operators begin calling "CQ International Dog Day" in August, they're not just looking for QSOs.

They are in search of people who have room in their hearts to help the abandoned, abused and homeless dogs around the world in whatever way they can. These dozen or so special event operators know the power of rescue because they've been deeply involved in it themselves: Hanz YL3JD and his wife opened their home – first in Holland, later in Latvia – and have given needy dogs a second chance at a new family. In Australia, and later in Germany, Ed DD5LP and his wife discovered – several times – that their household was incomplete without canine company. Many of the other operators' rescued dogs were adopted after hard lives on the street; others were at the pound, hours away from being euthanized.

International Dog Day (and in the US, National Dog Day) is August 26 every year. The tradition was created by US pet advocate Colleen Paige as a day to recognise the needs of society's unwanted and cast-off dogs and affirm the commitment to adopt, donate or raise awareness of their special needs.

Hanz amplified the original message by adding an amateur radio component in 2022, taking the special-event callsign YL1DOG and operating as a single station. The following year he was joined by Chris, G5VZ, and David, G4YVM, in the UK. By 2024, a team of eight US rescue-dog advocates, operating as K2D, had come on board. This year is the biggest yet, as hams in Germany and other countries run with the pack. All operators will be looking to hear from dog-lovers and supporters in either CW or SSB on HF, on VHF/UHF simplex, or via DMR and Echolink.

International Cat Day will be operating as a separate event, two weeks before the Dog Day operators get on the air – and they will be carrying a similar message for cat-rescue awareness. See catdayradio.org for details.
